NEW BATTLESHIP MAINE SUCCESSFULLY LAUNCHED

Captain Sigsbee, Who Commanded the Old Maine in Havana Harbor, Witnesses the Christening of the Ohio's Sister Ship at the Cramps Ship Yard by Miss Mary Peeble Anderson -New Warship Represents Another Step in the Development of the Steel Battleship.

MARY PREBLE ANDERSON. Selected by Governor Hill of Maine, to christen the new battleship Maine.

tleship Maine was faunched successfully at Cramp's shippard at 19:41 o'clock this morning. A great crowd saw the warship take her maiden plunge in the waters of the Delaware. The big hull was let go just as the tide slackened, and slid down the ways without a hitch. The weather was perfect. As soon as all was ready, Miss Mary Preble Anderson of Portland, Me., the sponsor of the Maine, escorted by Charles H. Cramp and the Governor of her native State, took her place upon the christening stand erected on the grand stand directly under the bows of the Maine.

Near by stood Admiral Melville and Captain Sigsber, who commanded the old Maine when she was blown up in Havana har-

Cramp gave a signal to Miss Anderson and she broke a bottle of native wine on the bow of the battleship, and said:

"I christen thee Maine." A deafening noise of cheers from the 10,000 spectators and of whistles from the boats on the river saluted the battleship as she guns.

Miss Anderson is a descendant of Commodore Preble of the United States Navy. Little Wood in the New Maine. Others who had been invited to the tubes.

Rear Admiral R. B. Bradford, Admiral Sumner. Captain Clark, in command of the Orethe members of the Government Inspection Board in connection with the warships under construction at Neafy and Levy's ship

The date of the act causing the building of the new Maine was May 4, 1898.

The Maine represents another step in the development of the battleship. In her conruction the omission of wood has been carried to a greater extent than in the older ships. Whatever wood is used is fireproof, except the Georgia pine planks on the weather deck.

The Maine is a sister ship of the Ohio, ecently launched at the Union Iron Works, San Francisco, and of the Missouri at the Newport News shippard. She is 388 feet long on the load water line, 72 feet 214 nches extreme breadth and at a mean draft of 23 feet 6 inches displaces 12,220 tons. The main battery of the ship will consist of four 12-inch and twelve 6-inch

Besides this, she will carry eight 14-

Pike County Farmer Seeks to Re cover Texas Property He Sold for a Song.

REPUBLIC SPECIAL.

Louisiana, Mo., July 27 .- J. W. Caldwell of Dameron, formerly Collector of Pike County, has brought suit against the Bank of Louisiana to set aside a deed to 2214 acres of land in Texas, forty miles from Beaumont. Mr. Caldwell was indebted to the bank in the sum of \$3,950, and the note was secured by a deed of trust on the Texas land. When called on for payment of the note last fall he offered a deed to the land, but it was declined.

In January, after oil had been discovered at Beaumont, the bank sent him a deed to the land to sign, and as he had not heard of the oil discoveries he signed it.

The bank was offered \$5.600 for the land by a man in the State of Louisiana, but before the deal was closed another offer of \$9.000 was received and the Louisiana man did not get the land. He has brought suit in Texas to compel the bank to give him a deed.

When Mr. Caldwell learned the facts he brought suit to have the deed he made to the bank set aside. The land is now worth about \$15,600, as a gusher was recently opened near it. Judge W. H. Although the case of Robert Stewart Fosburg is closed, there is still a Fosburg case. The Berkshires were so long rent with discussions as to the merits of the Commonwealth's now thoroughly discredited prosedings against the young man, accused of

killing his sister, that the lull after the storm is gladly welcomed and, in the calm that prevails at present, the fact is almost lost sight of that the slayer of the girl is still at large and unpunished. The question as to who killed her is still a mystery, and when Pittsfielders were re-

Fosburg will, according to all the indications of the week, now become the case of Chief of Police Nicholson, probably not in the forum of the courts, but in the forum of the street and other places where men congregate and talk things over.

Early in the week, before it was seen that the Government had not evidence to convict young Fosburg, it was hard to find any native of the Berkshires, except in the limited circle of acquaintance which the Fosburgs had made, who would admit that the Chief's stock could depreciate, no mat-
